

## BioArt: Visitors Survey Questionnaire

We would greatly appreciate a few minutes of your time to fill out this questionnaire.

BioArt as a new art form, which is associated with different forms of life, raises many debates, controversies, conflicts, approbation or disapprobation. However, research outlining the impact of BioArt exhibitions to the public has not been extensively conducted.

TEI of Athens, in collaboration with researchers from Columbia University and the Panteion University of Athens, has launched a research project entitled “*BioArt: Borders and definitions. Research project for the development of a widely accepted deontological framework of its production and management*”. In the framework of the project visitors survey is carried out bases on questionnaire. The aim of the research is to outline the impact of the exhibition of BioArt works to the public.

Your participation is entirely voluntary and would be a great help to us. Your response will be treated in strictest confidence.

### Section A: Visitors Profile

- How often do you visit art museums and/or art galleries?** (*tick only one box*)
 

<input type="checkbox"/> One visit per year	<input type="checkbox"/> 4-5 visits per year
